

National Hispanic College Fair at Molloy College

On Friday, October 25, the guidance department took 67 Brentwood High School students to a National Hispanic College Fair at Molloy College. The students met with over 100 college representatives and admissions counselors to discuss their majors, athletic programs and financial aid. This valuable trip gave students an opportunity to speak directly to college admissions specialists about the criteria for getting into their school and insight into their collegiate programs. Prior to leaving for this highly profitable educational endeavor students underwent a Pre-College Information session that involved Question and Answer prompts designed to assist students in deciphering the college verbiage. This session was led by Mr. Wayne Abenes, District Coordinator of Guidance and Guidance Counselors, Michelle Stylianos, Antoinette Shervington & Augie Fernandez.
